Question:

Prepare a Trial Balance from the following transactions of XYZ Traders for the year ended 31 December 2012:

Account	Debit (R)	Credit (R)
---------	-----------	------------

Account	Debit (R)	Credit (R)
---------	-----------	------------

Cash	5,000	
------	-------	--

Accounts Receivable	10,000	
---------------------	--------	--

Inventory	15,000	
-----------	--------	--

Accounts Payable		8,000
------------------	--	-------

Capital		22,000
---------	--	--------

Purchases	12,000	
-----------	--------	--

Sales		25,000
-------	--	--------

Expenses	3,000	
----------	-------	--

Solution (as outlined in the memorandum):

- List all debit accounts with their amounts.
- List all credit accounts with their amounts.
- Ensure total debits equal total credits:

Total Debits = Cash (5,000) + Accounts Receivable (10,000) + Inventory (15,000) + Expenses (3,000) = 33,000

Total Credits = Accounts Payable (8,000) + Capital (22,000) + Sales (25,000) = 55,000

Note: Since totals do not match, the student should identify missing or incorrect entries. The memorandum would guide through the correction process, such as including missing figures or adjusting entries.
